## SUMMARY

Final-year Computer Engineering student with hands-on experience in Python and data visualization. Passionate about data-driven problem solving and aiming to grow as a Data Analyst. Completed academic and personal projects involving Pandas, Matplotlib, and data analysis workflows. Strong interest in continuous learning and applying analytical insights to real-world challenges.

## SKILLS

- Python, Pandas, Matplotlib, CSV/Excel file handling
- Ability to transform raw data into insights
- Strong presentation skills

## PROJECTS

### SPORTS EVENT MANAGEMENT SYSTEM

C Programming | MS Access | Visual Studio Code

- Developed a console-based application to manage sports event data, allowing users to add, modify, retrieve, and delete student records stored in an MS Access database.
- Implemented file handling and database connectivity using C to simulate real-time data operations and improve user interaction.
- Gained hands-on experience in system design, structured programming, and integrating databases with C for practical use-case scenarios.

### PERSONAL FINANCE TRACKER

MERN Stack | Material UI | ElectronJS

- Built a cross-platform desktop application using ElectronJS to help users track income, expenses, and savings with an intuitive interface.
- Integrated MongoDB for secure data storage, ExpressJS for backend APIs, React for dynamic frontend, and Material UI for a clean, responsive UI.
- Designed features like transaction history, category-wise filters, and real-time balance updates to promote better financial awareness.

## EDUCATION

### BACHELOR OF TECHNOLOGY | 2022 - 2026

K.C.E's College Of Engineering And Management

### HCS | 2022 | 69.83% SSC | 2020 | 81.80%

Iqra Shahin, Jalgaon

## CERTIFICATIONS

### Python Development-Based

Paarsh Infotech Pvt Ltd

### The Ultimate Data Science Course
